[If that does not work, download the WBStool ZIP-file:

http://www.milestoned.co.uk/wbstool/wbstoolzip.zip

and extract the contents into a new folder called 'C:\Users\{your Windows username}\WBStool\'. Copy the English (or German) language file over the active language file:

WBStoolLang.dat
WBStoolLangDE.dat
WBStoolLangEN.dat
WBStoolLangES.dat
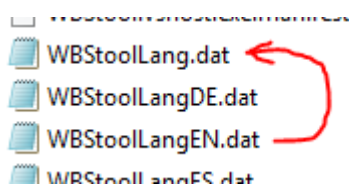

Then start 'WBStool.exe' and skip the next step.]

7. Afterwards the installer starts WBStool.

8. Click 'I have a trial/licence key' – or request a 30-day trail key, if you do not have a key.
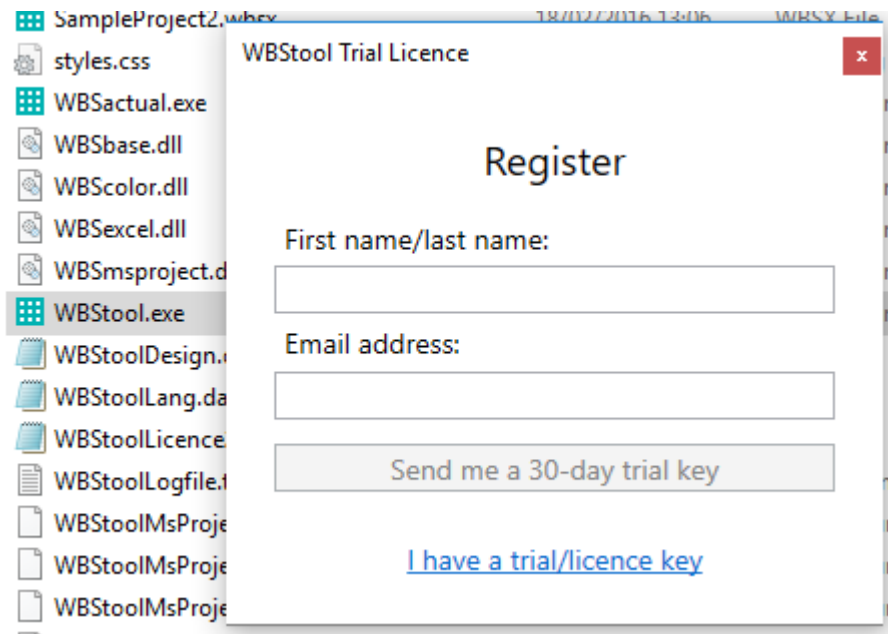

9. Enter your name, email, and licence key in the tab 'Licence' and click 'Validate key'.

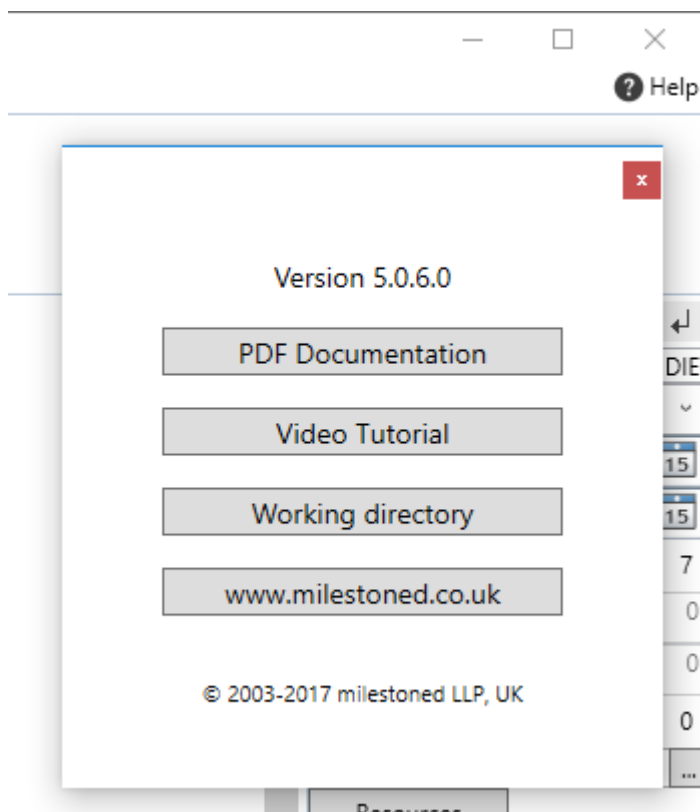

10. WBStool creates a desktop shortcut when started for the first time:

11. Pin the running WBStool to the taskbar. In addition you can open a saved project.wbsx file with WBStool.exe and make sure that *.wbsx files are always opened with this application.

12. Help can be found here:

13. Have fun with WBStool, and we wish you success in your projects!
